

TRANSPORTATION

CODE F09
(Required Policy)¹
VSBA Updated 9/18/13

Policy

Where it is reasonable and necessary to enable a student entitled or required to attend an elementary or a secondary school operated by the District, the District may furnish transportation on public roads to students who reside within the District. The district may provide transportation to non resident students as authorized by the school board.² Accordingly, the Marlboro School District has decided to furnish transportation under this policy.

The School Bus Coordinator with consultation of the principal will establish routes and designate stops after considering both the safety of children and efficiency of operation. The School Bus Coordinator will consider the following factors when determining routes and stops.

1. The age and health of pupils,
2. Distance to be traveled,
3. Condition of the road, and
4. Type of highway.

The School Bus Coordinator may consider any other factors he or she deems appropriate when establishing routes and designated stops.

The School Bus Coordinator shall submit to the school board for approval any purchases necessary to maintain and operate transportation equipment,³ and shall include in his or her annual report to the board information as to all pupils transported by the school district and the expense thereof.⁴

Contractual agreements shall be approved by the Superintendent, if additional transportation is need for individual circumstances.

Date Warned: 11/2/15

Date Adopted: 12/7/15

16 V.S.A. §1551 (Technical center transport)

Cross Reference:

¹ 16 V.S.A. 1222(a) requires a transportation policy. "Each board shall adopt a transportation policy for pupils required to attend school in accordance with the procedure specified in section 563(1) of this title. The policy must take into consideration the transportation needs of pupils supported by, but not limited to, such factors as age and health of pupils, distance to be traveled, condition of the road and type of highway. The policy shall be adopted by the board and...filed in the office of the principal in each school in the district."

² At the option of the board, authorization to transport non resident students could be delegated to the superintendent or other administrator. The superintendent's annual report to the board would provide information about non resident transportation.
